PROFESSIONAL SUMMARY

SAP developer with ~5 years of experience building S/4HANA solutions across greenfield implementations and global rollouts. Specialized in ABAP on HANA, the ABAP RESTful Application Programming model (RAP), CDS Views, AMDP, and OData services, with hands-on Clean Core extensibility (in-app and side-by-side) on SAP BTP using CAP and Fiori/SAPUI5. Functional exposure across MM, QM, SD, and FI with full RICEFW delivery. Strong engineering practice: ATC compliance, ABAP Unit, gCTS/abapGit, and CI/CD. SAP-certified Solution Architect (BTP), Back-End Developer (ABAP Cloud), and Fiori Application Developer.

TECHNICAL SKILLS

SAP Technologies: ABAP on HANA, RAP, ABAP Cloud, CDS Views, AMDP, OData, Clean Core Extensibility (in-app & side-by-side), SAP BTP, CAP, Fiori/SAPUI5, Adobe Forms, BRF+, Workflow

Languages: ABAP, Python, JavaScript, Java, Node.js, SQL

Integration: OData services, REST/SOAP APIs, IDocs, RFCs, Proxies, BAPIs

Tools: Eclipse ADT, SAP BAS, ATC, ABAP Unit, Code Inspector, gCTS, abapGit, CI/CD pipelines, SEGW

Methodologies: Agile/Scrum, RICEFW development, greenfield implementations, global rollouts

WORK EXPERIENCE

Airbus

Sep 2025 – Present

Technology Analyst

India

- Develop S/4HANA extensions using ABAP RAP, CDS Views, and OData following Clean Core extensibility guidelines (in-app and side-by-side on SAP BTP).
- Build and maintain Fiori/SAPUI5 applications and backend services across MM and QM processes.
- Apply modern engineering practice: ATC-compliant code, ABAP Unit tests, and version control with gCTS/abapGit in CI/CD pipelines.

Accenture

Jan 2022 – Aug 2025

Packaged App Development Analyst

Hyderabad, India

- Led technical design and development on 2 greenfield S/4HANA implementations and a major global retail rollout impacting 500+ stores across multiple countries.
- Architected cloud-native side-by-side extensions on SAP BTP using CAP and Node.js, reducing system integration time by 40%.
- Created 15+ complex CDS Views and AMDP procedures for real-time inventory and sales analytics processing 2M+ transactions daily, achieving 70% faster query execution through HANA optimization.
- Implemented OData services (SEGW and CDS-based) enabling integration with third-party logistics providers; built 5 Fiori/SAPUI5 applications used by 200+ warehouse operators.
- Configured SAP Workflow with BRF+ rules for automated approvals, cutting processing time from days to hours; developed custom ABAP data-migration framework reducing manual effort by 60%.
- Delivered RICEFW objects across MM, QM, SD, and FI: reports with ALV, BADI, user exits, enhancement points, IDoc/Proxy B2B integration scenarios, and Adobe/Smart Forms.
- Introduced ABAP Unit testing to the team (80% coverage on critical modules) and mentored 3 junior developers on ABAP best practices and S/4HANA guidelines.

CERTIFICATIONS

SAP Certified Professional – Solution Architect, SAP BTP

May 2025

SAP Certified Associate – SAP Generative AI Developer

2025

SAP Certified Associate – Back-End Developer, ABAP Cloud

Jul 2024

SAP Certified Associate – Fiori Application Developer

Jul 2024

EDUCATION

Sri Indu College of Engineering & Technology

2017 – 2021

B.Tech, Computer Science & Engineering

Hyderabad, India
